During the 2016/2017 reporting period, Fondazione Italia USA undertook a number of activities that underscore its commitment to UNAI and its principles. The following examples stand out as particularly noteworthy:

During 2017, as in the previous years, the Italy-USA Foundation (Fondazione Italia USA) organized a nationwide dissemination campaign which included monthly conferences with students held at the Italian Parliament, to discuss several principles included in the list of UNAI, especially:

- Education for All
- Global Citizenship
- Access to Higher Education
- Human Rights and Intercultural Dialogue

The speakers involved were mainly members of the Parliament, journalists, academics and diplomats. Sometimes also the Minister of Education or the Vice-Minister of Education of the Italian Government spoke. Approx 350 students from Italian Universities attended each conference held in the Parliament.

The panel of 4-5 speakers for each conference discussed with the students and their families, focusing on one or more of the mentioned principles, providing also useful information for the students. To attend the conferences is free of charge, thanks to the support and the organization of the Italian Parliament, and the students are nationally selected by the Consortium of the Italian
The Foundation involves every year more than 2000 students in this successful project, begun in 2014.
