

UNAI MEMBER ACTIVITY REPORT 2016/2017

CCLP Worldwide

India

During the 2016/2017 reporting period, CCLP Worldwide undertook a number of activities that underscore its commitment to UNAI and its principles.

The main publication of CCLP Worldwide "The Education Charter" covers the issue of education, poverty and sustainability. Various seminars and workshop were organized by CCLP Worldwide to highlight the critical link between education and sustainability. CCLP Worldwide provides free online courses to deserving students free of cost through its site. By way of its website and members network, CCLP Worldwide constantly upholds its vision of "Education for All". International Youth Day was observed with students of Saraswati World School in August 2016.

Currently we are working on academic research based on NEST Education applicability at high school level. NEST stands for Nature, Environment, Science and Technology and its application in imparting education at primary and secondary and high secondary level. Under research we have published the book called "Applicability of NEST Methodologies and the same is registered with UN SDG partnership under the name "Quality Education and all around development through implementation of NEST methodologies".
