

# UNAI MEMBER ACTIVITY REPORTS 2013-2014

## East Stroudsburg South High School

### USA

During the 2013-14 reporting period, East Stroudsburg South High School's UNAI ASPIRE chapter has grown tremendously in scope and membership, engaging in a number of activities that underscore its on-going commitment to UNAI and its principles. The following examples stand out as particularly notable:

In 2014, students affiliated with East Stroudsburg South High School's UNAI ASPIRE chapter learned to plan long-term initiatives and develop local and global partnerships in line with UNAI principles. The chapter is currently facilitating monetary and items donations, which will ultimately benefit local families directly affected by the ongoing crisis in Syria.

Additionally, the chapter is planning a grassroots, student-driven initiative to educate members of the high school and local community about Type-1 Diabetes, as two current members of the high school's ASPIRE chapter live with this diagnosis.

A delegation from East Stroudsburg South High School—along with nearly 600 youth from 80 countries—visited UN Headquarters in New York as part of Secretary General Ban-Ki Moon's Education First Initiative. The conference was assembled, in part, to celebrate Malala Yousafzai's 16<sup>th</sup> birthday, the girl who was shot by the Taliban while advocating for women's education in Pakistan. Two East Stroudsburg South High School students, along with two ASPIRE advisers, were in attendance to witness Malala's first public appearance since the recent attack on her life.
